

Plug in - hang up - read out

## CRbib

Library card reader for universities

Automated entry and clear assignment, without risk of confusion: with CRbib, borrowed materials can be booked to the respective library account without manual effort.

Commissioning the card reader is just as easy as its everyday use: just plug it in! To read a card, simply place it on the device and the required information is automatically accepted into the library system.

Compatible Library Software	all systems, e.g. Alma, Libre,...
Technical Details	RFID Reader MIFARE Mifare Classic, Mifare DESFire, Legic (PRIME/ADVANT) Supply and data transfer via USB interface
