

# WCM Selfservice Terminal CT3

The service-oriented complete system for Card issuing made in Austria

Issues voucher cards, membership cards and visitor passes easily and without personnel costs. The system is versatile and allows maximum adaptability to customer-specific requirements. Personalized vouchers? Just a question of your own creativity. Even the issue of classic ID cards, such as student ID cards, is also possible. This is because our system ensures that the person issuing the card receives the correct ID.
