

GREEN QUALITY CARD

Made in Austria

Developed in cooperation with BOKU, University of Natural Resources and Life Sciences Vienna.

Our future is plastic free. Therefore we are motivated to reducing our carbon footprint by the end of our lifetime. As we are a main distributor of plastic cards, we saw the necessity to create a product, that is environmentally friendly and concious free. Thus our production of Bio Cards started 5 years ago. Our Bio cards are 100 % recyclable but also compostable in accordance with DIN EN 13432 confirmed by BOKU, University of Natural Resources and Life Sciences Vienna.

Bio cards can be printed like other cards (offset, ink, laser, sublimation). Available in ISO format and in individual special formats.
