

eIDstud

How do we make the transition to eID?
All Services with card and smartphone

We've developed a hybrid solution that combines the reliability and trustworthiness of physical ID-Cards with the convenience of eID. With our hybrid solution, you can transition safely to eID while building trust and confidence in the fundamentals of eID.

Android devices based on NFC

iPhone® mobile digital devices based on QR-Code (more to come 2025, referring to Apple timeline for Apple Student ID)

iPhone® is a trademark of Apple Inc., registered in the U.S. and other countries and regions.
